

**NOTICE OF EMERGENCY CHANGES
TO THE 2022 UTAH FISHING GUIDEBOOK
OF THE WILDLIFE BOARD FOR THE TAKING
OF FISH AND CRAYFISH**

I, Justin Shirley, by authority granted in Section 23-14-8 of the Wildlife Resources Code of Utah declare an emergency amendment to the 2022 Utah Fishing Guidebook. The following has been amended:

Johnson Reservoir (Sevier County):

- 4 tiger muskellunge, any size

This change is effective June 8, 2022 and will remain in effect until September 30, 2022.

Johnson Reservoir is being drained so repairs to the dam can be performed. The Division expects that no fish will survive once the reservoir is drained. The intent of this emergency regulation change is to provide anglers the opportunity to remove an increased number of tiger muskellunge ahead of draining. It is the Division's goal through this liberalized harvest limit and Division led salvage efforts to remove a significant portion of tiger muskellunge from Johnson Reservoir before the reservoir is drained.

All other rules established in the 2022 Utah Fishing Guidebook remain in effect.
